- **Experiment: "Picking Up the Pieces"**
- Assignment: Laboratory Write-Up is due on Thursday.
- Assignment: Read Chapter 12 of "Stiff" and complete the associated questions. This assignment is due on Sunday @ 11:59PM.

Thursday:

- Bell-Ringer
- **Introduction to Fiber Evidence (Part 2)**
- Assignment: Complete Case Study: "Riddle of Fibers".

Friday:

- In-Class Review of Laboratory Procedures
- **Experiment: "Who's Clothes Did This Come From?"**
- Assignment: Laboratory Write-Up is Due on Monday.

Objectives for Week #14

- Determine the specific type of fiber (natural or synthetic) present in the evidence.
- Identifying whether a fiber is cotton, wool, polyester, nylon, etc., helps narrow down potential sources and provides initial leads in an investigation.
- Compare fibers from a crime scene with fibers from a suspect's clothing or belongings.
- Establishing a match or similarity between fibers can link a suspect to the crime scene or victim.
